## Wilson Architects Collection

<b>Size</b>	61 boxes, 1 parcel, 1 folder, several hundred plans
<b>Contents</b>	Architectural plans of residential and commercial buildings. Also includes bills of quantities, client files, specification files, job files, miscellaneous papers of A.B. Wilson and R.M. Wilson, and card index of plans by plan numbers, job numbers, and client names. Includes several plans by Alfred Banks. Also includes rare poster "Victoria Skating Rink, Sandgate". Includes plan of 'University site, St. Lucia. Proposed design', by R.W.J. Hawken, 1929. Professor Hawken and Alexander Wilson were members of a committee established in 1921 to determine a site for the University of Queensland.
<b>Biography</b>	Alexander Brown Wilson was born in Glasgow, Scotland in 1857. In 1864 his family emigrated to Brisbane. He established his own architectural practice in Brisbane in 1884, and was joined by his architect-engineer son, Ronald Martin Wilson in 1920. After Alexander Wilson's retirement in 1928, Ronald Wilson continued the practice until 1955. He in turn was joined by his son, Blair M. Wilson, who had graduated from the University of Queensland. The Wilson firm is continued by Alexander Wilson's great-grandson, Hamilton Blair Wilson.

### *Job files*

This series "Job Files" has been arranged by the firm in a numerical sequence, each job receiving an individual number. Although one sequence has been produced it appears that some anomalies of date and number may mean that more than one sequence was originally produced. For instance a wood residence erected for Mr. B.A. Reader at Kangaroo Point uses job 472 and the period 1922-4 while the conversion of a residence to flats for Mrs. Hughes in 1938 bears the job number 167.

The files contain correspondence, contracts, sketches, specifications, accounts and plans.

The series of plans which were kept separate form another series and the job files are correlated with them by job number.
